

IN WASHINGTON STATE,
MEN WHO CLEAR
CUT FORESTS
ARE CALLED TIMBER BARONS.
IN WASHINGTON D.C.
THEY'RE CALLED
POLITICIANS.

Ancient Forests have survived world wars, the gold rush and the industrial revolution. Yet now some members of the United States Congress are their most deadly threat.

These "trusted" officials are opposed to The Act To Save America's Forests. A bill that would prevent the U.S. Forest Service and timber corporations from destroying the last 5% of America's original ancient forests.

Don't just get outraged at what these Politicians are doing, stop them. With your calls and support.

Save America's Forests
